EDUCATION

The Islamia University of Bahawalpur

Oct 2021-May 2025

- Graduated in Software Engineering
CGPA: **3.10** out of **4.00**

PUBLICATION

Manuscripts in Preparation

Title:"Bone Fracture Detection and Advisory System"

Title:"AI Feshion Recommender System"

EXPERIENCE

I have over 1 year of experience in MERN stack development, including 1 year in frontend development and 6 months in backend development. My primary focus has been on building responsive and user-friendly web interfaces using React.js. On the backend, I have worked with Node.js and Express, contributing to RESTful API development and integration. During this time, I contributed to the development of the **WearHub E-commerce website with an AI Fashion Recommender system**, where I was responsible for both frontend and backend tasks, including UI design, API integration, and application logic.

SKILLS

❖ Programming languages

- HTML5
- CSS3
- JavaScript
- React.js
- Next.js
- Context API
- Bootstrap / Tailwind

❖ Web Development

- RESTful APIs
- Node.JS
- Express.Js
- Git & GitHub
- MongoDB
- **Deployments**
- Netlify
- Vercel

❖ Tools & Platforms

- VS Code
- Visual Studio community
- Thunder Client
- PostMan

ONLINE COURSES

COURSERA

- Web Development (01-4-2023)
- Learn JavaScript (01-7-2023)

PROJECTS

❖ E-commerce-Web-App(FYP) ([Working On its Backend check gitHub repo](#))

Built a responsive React.js-based e-commerce site with product listings, shopping cart, and user authentication, offering a smooth and user-friendly online shopping experience and this is wear hub [Admin Dashboard](#).

❖ The Eagle.io 2024(React.js)

Developed "Theeagleio", an investment platform like Forsage, built using MERN Stack, contract addresss and tailwind CSS for secure and seamless user experience.

❖ [HumTek solutions](#)

Built a dynamic website using HTML, CSS, Bootstrap, and JavaScript. This project is based on a banking system and a machine maintenance service provider web application.
